

HYDRAULICS

FLURO®-Gelenklager GmbH offers a wide range of services in the field of hydraulic components. The product portfolio ranges from standard and high-performance spherical plain bearings of various dimensional series through cylindrical bushings to hydraulic rod ends in different versions. Our products are used, for example, in mining and shipbuilding, in cranes, excavators and other building machinery as well as in mechanical and plant engineering.

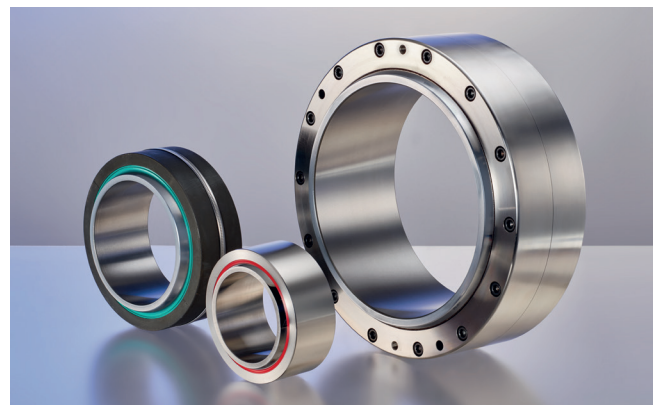

OUR PRODUCTS

Our customers can choose from an extensive product portfolio for specific applications. They benefit from our many years of know-how in spherical plain bearings technology.

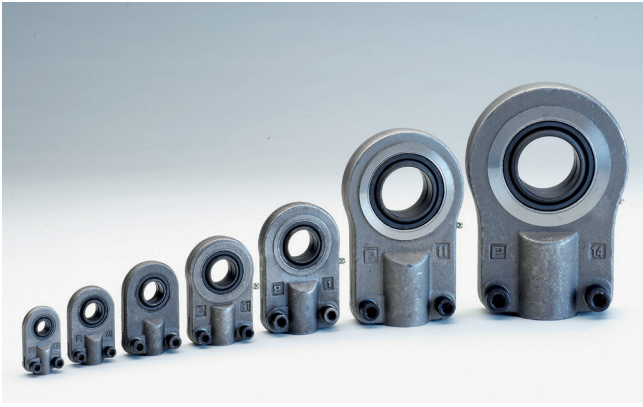

Standard Spherical Plain Bearings Series E

- > Steel / steel: **GE..E (-2RS)**
- > Maintenance-free: **GE..EC (-2RS)**
- > Maintenance-free, stainless: **GE..EC-NIRO (-2RSF)**

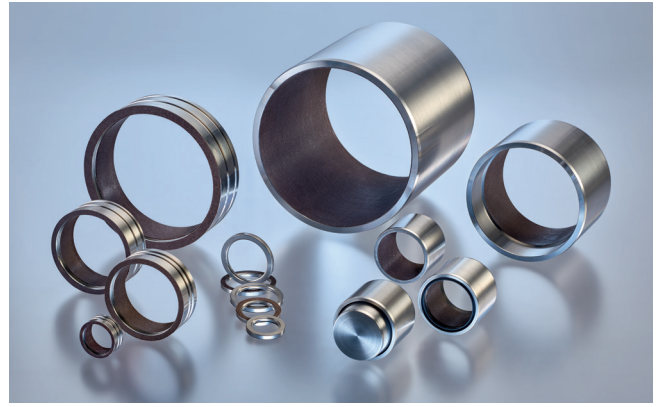

High-Performance Spherical Plain Bearings Series E

- > Maintenance-free / FLUROGLIDE® WEAR SOLID: **GE..EW (-2RS)**
- > **NEW:** Maintenance-free, media-resistant / FLUROGLIDE® MEDIA SOLID: **GE..EWM (-2RSF) / GE..EWM-NIRO (-2RSF)**

Hydraulic Rod Ends

- > With steel / steel spherical plain bearing; alternatively with maintenance-free spherical plain bearing; with female thread for screwing on; with right-hand and left-hand thread, slit both sides for clamping: **FPR(L)..S / FPR(L)..CE / FPR(L)..N / FPR(L)..U / FMA(L)..D**
- > With round and rectangular welding end: **FS..C / FS..N**
- > Available in completely stainless version on request

Cylindrical Sliding Bushings

- > Maintenance-free / FLUROGLIDE®: **GB..x..x..ZW**

OUR STRENGTHS | YOUR ADVANTAGES

FLURO®-Gelenklager GmbH scores high marks with quality, know-how, flexibility and reliability.

- ✓ Full-range supplier, broad product portfolio – Made in Germany
- ✓ Robust, long-lasting quality products for the highest demands
- ✓ Tailor-made for individual customer requirements
- ✓ Standard sizes available ex-stores

YOUR STRONG PARTNER

FLURO®-Gelenklager GmbH has been the strong partner by your side for more than 45 years. Our specialists will be glad to support you with their expertise. Contact us.

We look forward to your inquiry.
